Leather Care

How To Care For Your Boots

Customers often ask how they should care for their boots and other genuine leather products. The longevity of the life of a cowboy boot, or any leather product is a direct reflection of how the leather has been cared for and maintained. The Boot Doctor™ leather care line offers a full selection of product specifically designed to ensure leather is conditioned and protected and make sure the life of the boot or leather product is prolonged.

There are 4 steps to properly maintaining and caring for leather boots and other leather product:

1. CLEANING
2. CONDITIONING
3. POLISHING
4. PROTECTING

Leather Care

How To Care For Your Boots

Boot Doctor™, by M & F Western Products, offers a full line of leather care specifically designed to achieve the best care of your leather product. The first step of proper leather care is cleaning. The following Boot Doctor™ products will clean any genuine leather product thoroughly without damaging it.

- BD Cleaner 1 Leather Cleaner. B03968
- BD Reptile Cleaner & Conditioner B03960
